Bentley Gains Pre-Qualification with GDOT in 3.17 and 3.11

Longwood, Fla. (February 18, 2011) – Bentley has expanded its tolling infrastructure design services to include the Georgia Department of Transportation (GDOT). The firm was recently pre-qualified with the GDOT in work areas 3.17 (Toll Facilities Infrastructure Design) and 3.11 (Architecture).

“Bentley is a leader in toll infrastructure design in Florida. Expanding our services into Georgia was the next natural step,” said William C. Bentley, president of the firm.

Since its inception in 1984, Bentley Architects + Engineers, Inc. has been providing Architectural and Engineering services throughout Central Florida and the United States. Bentley's services include Architectural Design, Land Development, Structural Engineering and Transportation Engineering. Having this combination of disciplines under one roof enables Bentley to provide its clients with innovative and cost-effective solutions to a variety of projects.
